

Now providing Individualised Funding (IF)

Individualised Funding provided through VisionWest will help someone with a disability to:

- Enjoy greater flexibility with support, to improve lifestyle
- Manage their own timeframes
- Have greater control and input into who provides the supports
- Connect into networks of people who have also chosen Individualised Funding

IF is especially designed to provide someone with a disability greater choice and flexibility of how their homecare services will be delivered.

VisionWest will be holding a number of meetings to further discuss this new opportunity in the near future. We will keep you informed.
